EXECUTIVE SUMMARY

Higher education and economic development are inextricably linked to one another. Colleges and universities have a critical role to play in the success of the Quad Cities regional economic development efforts.

Regional institutions of higher education offer pathways to credentials, degrees and retraining opportunities for those with and without college credentials and thereby supporting and creating a qualified and diverse pool of employees for local business and industry.

Human capital has a significant impact on the economic progress of a region. Higher levels of education correspond to lower levels of unemployment and poverty, they contribute to more tax revenues and decrease demand on public budgets. Additional higher levels of education are correlated with higher levels of civic participation, including volunteerism and voting. Well-educated people in a region make for a highly productive labor force and make a community an attractive place to live.

The Graduate Inventory describes the level and distribution of educational attainment as reported by institutions of higher education within a 90-mile radius of the Quad Cities. The data are aligned to the target industries identified by the Quad Cities Chamber of Commerce. Community, business, labor and educational leaders can utilize this information to promote the Quad Cities region's availability of skilled and educated workforce to meet the needs of existing companies and to attract new and growing companies to the Quad Cities.

This report investigated the educational awards conferred by high school and post-secondary education institutions within a 90-mile radius of the Quad Cities. For those institutions 31,378 post-secondary awards were conferred to 28,091 individual students during 2021-22 academic year. Due to differences in the institutions covered by this report compared to previous editions, the total number is not comparable to what was published in previous editions.

In summary, the following degrees and certificates were awarded:

- <1 Year Certificates 2,516 (4.2%)
- 1 to <2 Year Certificates 2,260 (3.8%)

- 2 to 4 Year Certificates 150 (0.3%)
- Associate 5,970 (10.0%)
- Bachelor 13,690 (23.0%)
- Master 3,749 (6.3%)
- Doctorate 1,699 (2.9%)
- Post-Graduate Certificates 1,344 (2.3%).

Within each degree type, the three largest number of awards conferred by program were:

- <1 Year Certificates – Nursing Assistant/Aide and Patient Care Assistant/Aide 632, Welding Technology/Welder 306, Automobile/Automotive Mechanics Technology/Technician 181
- 1 to <2 Years Certificates – Liberal Arts and Sciences/Liberal Studies 1,034, Licensed Practical/Vocational Nurse Training 312, Medical/Clinical Assistant 163
- 2 to <4 Years Certificates – Cosmetology/Cosmetologist (General) 129, Radiologic Technology/Science – Radiographer 11, Registered Nursing/Registered Nurse 10
- Associates – Liberal Arts and Sciences/Liberal Studies 2,761, Registered Nursing/Registered Nurse 543, General Studies 377
- Bachelors – Registered Nursing/Registered Nurse 969, Psychology (General) 676, Business Administration and Management (General) 609
- Masters – Business Administration and Management (General) 567, Computer Science 301, Social Work 156
- Doctorates – Chiropractic 606, Medicine 142, Law 137
- Post-Graduate Certificates – Organizational Leadership 154, Entrepreneurship/Entrepreneurial Studies 136, Meeting and Event Planning 106

Within each target industry identified by the Quad Cities Chamber of Commerce, the three largest number of awards conferred by Category were:

- Advanced Manufacturing – Business Administration and Management (General) 1437, Welding Technology/Welder 688, Computer Science 534
- Agricultural Innovation – Business Administration and Management (General) 1,437, Finance (General) 506, Biology/Biological Sciences 459
- Defense – Business Administration and Management (General) 1,437, Computer Science 534, Finance (General) 506

- Logistics – Business Administration and Management (General) 1,437, Computer Science 534, Finance (General) 506
- Corporate Operations & Support Services – Business Administration and Management (General) 1,437, Psychology (General) 696, Accounting 566

To standardize the data across institutions the Report uses the Classification of Instruction Program (CIP) coding structure. CIP provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completion activity. Additionally, to align the educational outcomes to the Bureau of Labor Statistics a crosswalk aligns instructional programs with the classification system, 2018 Standard Occupational Classification (SOC), used by the Labor Department to classify workers into occupational categories.

METHODOLOGY

This Graduate Inventory consists of data for the 2021-22 Academic Year and includes data describing enrollment in the region's higher education institutions, graduates by institutions and graduates by specific field of study.

Information was collected regarding the unduplicated headcount of higher education award recipients from the Integrated Postsecondary Education Data System (IPEDS). Higher educational institutions (colleges, universities and technical – vocational institutions) participating in the federal student financial aid program are required to report data to this system. The Higher Education Act of 1965, as amended, requires institutions to report data on enrollments, program completions, graduation rates, faculty and staff, finances, institutional processes and student financial aid. Data regarding enrollment and program completion were used.

IPEDS is a system of interrelated surveys conducted annually by the U.S. Department's National Center for Education Statistics (NCES). These data are made available to students and parents through the College Navigator college search website and to researchers and others through the IPEDS Data Center.

Data for all high schools located within 90 miles of the Quad Cities for Iowa and Illinois was collected, respectively, from the following websites Iowa Department of Education, Data & Reporting, Education Statistics, Graduate Counts/Graduate Intentions and Illinois State Board of Education, Data Analysis, Reports, Annual Statistical Report. The most recent data for the State of Illinois is 2019-20. Data was aggregated to provide the total number of high school graduates, standard enrollment (as reported to IPEDS), number of awards received in a specific program (separated by the level of award) and the programs' category and CIP code.

To standardize the data across institutions of higher education, the Inventory uses the Classification of Instruction Program (CIP) coding structure. CIP provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. The taxonomy schema includes both a two-digit category and a six-digit program coding structure. Both of which are included in this Inventory to provide the greatest level of granularity possible.

The determination of target industries and the Programs within each industry was made using information supplied on the Sector Wages/Labor Characteristics PDF file accessed through each Core Industry on the Quad Cities Chamber of Commerce website (Advanced Manufacturing, Agricultural Innovation, Defense, Logistics, Professional and Technical Services).

Finally, to align the educational CIP codes with the Bureau of Labor Statistics a crosswalk was created aligning instructional programs with the Department of Labor classification system classify workers into occupational categories. The 2010 Standard Occupational Classification (SOC) system is used by Federal statistical agencies to classify workers into occupational categories for the purpose of collecting, calculating or disseminating data. All workers are classified into one of 840 detailed occupations according to their occupational definition. To facilitate classification, detailed occupations are combined to form 461 broad occupations, 97 minor groups and 23 major groups. Detailed occupations in the SOC with similar job duties, and in some cases skills, education and/or training, are grouped together. Using information provided by the Chamber of Commerce certain SOC codes were tied to key target industries. The Hyphen (-) is used to indicate there is no award offered for a program at the specific level. A Zero (0) indicates that although the program was offered at that level, no student awards occurred that year.

HIGHER EDUCATION INSTITUTIONS INCLUDED WITHIN A 90-MILE RADIUS

Degree-granting institutions are postsecondary institutions that provide pathways of study beyond secondary school and offer programs terminating in a certificate, associate, baccalaureate, or higher degree.
